State of Art Infrastructure

Manufacturing Facility

Renergié Global does contract manufacturing with 3 state of art manufacturing facilities at Mumbai (Maharashtra), Silvassa (Gujarat), Chennai (Tamilnadu) for manufacturing of Lubricants, Petrochemicals, Process oils etc., with strict quality control measures & dedicated total production capacity of around 60000 MT pa. Plants are ISO certified & well equipped with lab facilities complying to international quality standards. These plants are strategically located closer to sea ports , giving access to ease of import-exports & efficient supply chain management with reach to central warehouses.

Storage Facility

In addition to storage tanks at manufacturing facility, additional storage tanks are contracted on the port site (Chennai. Mumbai & Mundra) of upto 12000 MT to handle bulk volumes & for cost effective transportation.

Quality Assurance

We are committed to provide our customers Quality Products and Services while abiding to all legal statutory requirements. When it comes to quality, we never compromise and for that we make sure all products manufactured from plant go under quality inspection and meets all classifications. Besides continuous impetus on development of cost effective solutions, R&D service offers value added services in trouble shooting, lube oil management, energy conservation methods.
